

How to check your SIM2K hosted email account over the Internet

Updated: November 14, 2007

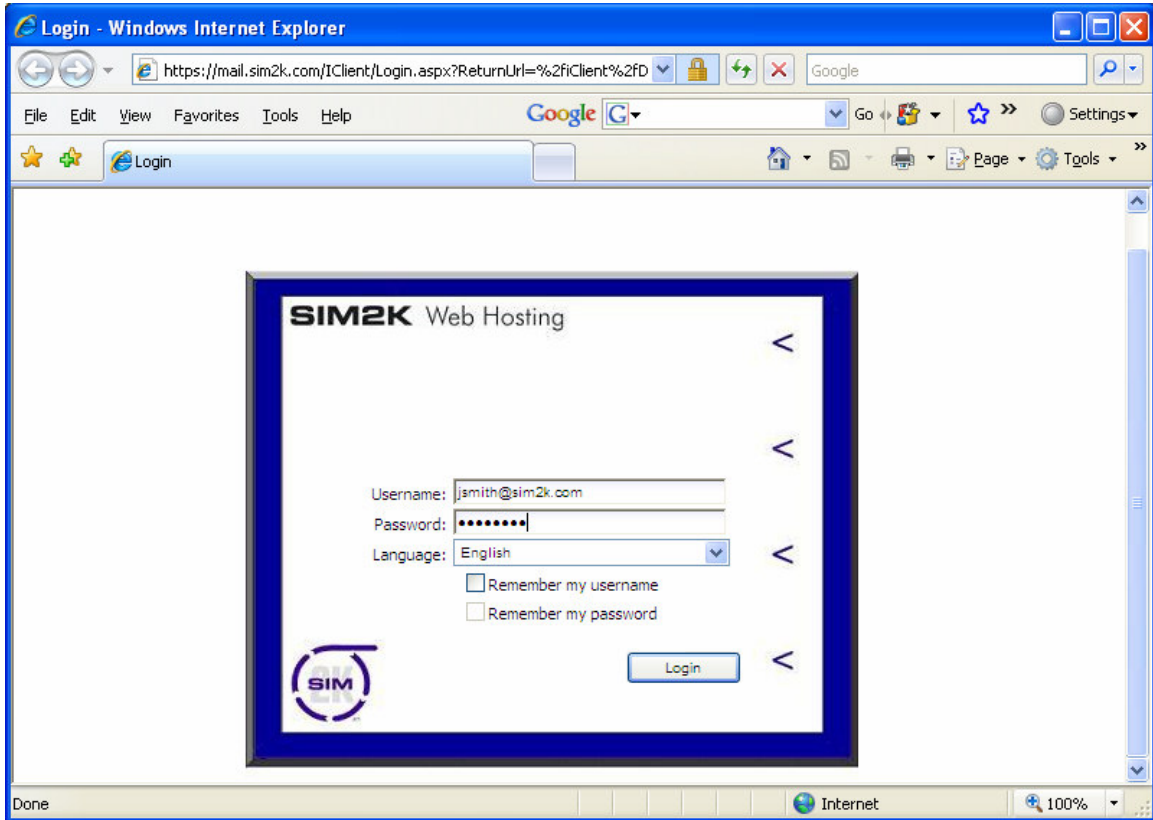

1. Open up your Internet browser (Internet Explorer, Firefox, Netscape, etc).
2. Go to the website: <http://www.sim2k.com>. There will be a button along the top of the page that says "Check your Web E-mail". Click that button.

3. Once you are there, you should get a screen that looks like the following:

A screenshot of the SIM2K Web Hosting login page. The page has a blue border and a white background. At the top left, it says "SIM2K Web Hosting". Below this, there are three input fields: "Username:", "Password:", and "Language:". The "Language:" field is a dropdown menu currently set to "English". Below the "Language:" field, there are two checkboxes: "Remember my username" (unchecked) and "Remember my password" (checked). At the bottom right, there is a "Login" button. In the bottom left corner, there is a SIM2K logo. On the right side of the page, there are four blue arrow icons pointing to the left, one next to each of the input fields and the "Login" button.

4. In the user ID field, enter your email address. For example, *jsmith@sim2k.com*
5. In the password field, enter the password you use to check your email. When you have done this, your screen should look like this:

6. Click the "Logon" button.
7. Read and compose email.
8. When you are done using this service, please remember to click "Logout" in the upper right hand corner of the screen.
